LORD ROBOROUGH
LORD BLENCATHRA
BARONESS JONES OF MOULSECOOMB

- 126 Leave out Clause 54

After Clause 54

BARONESS PINNOCK

- 127 After Clause 54, insert the following new Clause —

“Neighbourhood plans

The Secretary of State may only —

- (a) grant a development consent order where the Secretary of State believes that the application for consent gives due consideration to any relevant neighbourhood plan;
- (b) permit a variation to a neighbourhood plan which, in the opinion of the Secretary of State —
 - (i) is clearly justifiable,
 - (ii) is unlikely to compromise the overall intention of the neighbourhood plan, and
 - (iii) has been proposed in a clear and timely manner.”

Member's explanatory statement

This amendment requires the Secretary of State to have regard for a relevant neighbourhood plan when granting a development consent order.

Clause 55

LORD LANSLEY

- 128 Clause 55, page 91, line 32, leave out “one or more” and insert “the”

Member's explanatory statement

This amendment seeks to secure that each of the environmental features which are likely to be negatively affected by a development are identified in the EDP and the ways in which that effect is caused is also identified.

LORD LANSLEY

- 129** Clause 55, page 91, line 35, at end insert “unless they are environmental impacts expected to result directly from the development to which the EDP relates.”

Member's explanatory statement

This amendment would require that an EDP must identify the environmental impacts on an environmental feature if they result directly from the development to which the EDP relates.

BARONESS WILLIS OF SUMMERTOWN
LORD ROBOROUGH
BARONESS YOUNG OF OLD SCONE
BARONESS GRENDER

- 130** Clause 55, page 91, line 38, at end insert –
“(2A) An environmental impact identified in an EDP may only affect nutrient neutrality, water quality, water resource or air quality.”

Member's explanatory statement

This amendment seeks to limit the application of an EDP to issues where approaches at a strategic landscape scale will be effective.

LORD ROBOROUGH
LORD BLENCATHRA

- 131** Clause 55, page 92, line 4, at end insert “as assessed by the use of the best available evidence”

Member's explanatory statement

This amendment, and others in the name of Lord Roborough and Lord Blencathra would require Natural England and the Secretary of State to base their judgements in respect of an Environmental Delivery Plan on the best available scientific evidence.

LORD MARKHAM

- 132** Clause 55, page 92, line 4, at end insert –
“(3A) Where an EDP contains conservation measures concerning animal or plant life, those measures must be proportionate to the value reasonably attributable to the benefits of preserving that life.

- (3B) For the purposes of subsection (3A), the value of preserving a single animal or plant must not exceed the monetary value placed on preserving a human life as defined by National Institute for Health and Care Excellence guidance on cost-effectiveness thresholds.”

Member's explanatory statement

This probing amendment seeks to encourage debate on the proportionality of conservation measures included in an EDP. The amendment proposes an upper limit on the value of a conservation measure which is tied to NICE's “cost-effectiveness threshold” of £20,000-£30,000 per quality-adjusted life year. This figure is used by the NHS to assess the proportionality of a medical intervention and constitutes a monetary value for the preservation of a human life.

BARONESS TAYLOR OF STEVENAGE

- 133 Clause 55, page 92, line 9, after “site” insert “that is wholly in England”

Member's explanatory statement

This amendment would prevent Natural England from including in an EDP network conservation measures where the affected site was not in England (or in English territorial waters or the English offshore region: see my amendment at page 92, line 31); in such a case, any conservation measures would have to benefit the affected site itself (but the conservation measures would have to be taken in England).

LORD FULLER

- 134 Clause 55, page 92, line 22, at end insert —

“(8A) Any conservation measures provided by a landholding within the scope of an EDP must be legally secured by an agreement under section 106 of the Town and Country Planning Act 1990.”

Member's explanatory statement

These changes are proposed as a means to ensure the deliverability of conservation measures provided by an EDP and to provide a stronger enforceability route than alternatives like a HM Land Registry Charge, which does not have the same level of legal enforceability.

LORD ROBOROUGH

- 135 Clause 55, page 92, line 30 after “imposed” insert “in relation to development which falls within the scope of the EDP”

Member's explanatory statement

This amendment clarifies that conservation measures can only be in the form of a requirement for Natural England to seek planning conditions to be imposed on development of a type which would fall within the scope of the EDP.

BARONESS TAYLOR OF STEVENAGE

- 136 Clause 55, page 92, line 31, after “section” insert “—
“England” includes—
(a) the waters adjacent to England up to the seaward limits of the territorial sea, and
(b) the English offshore region;
“English offshore region” has the same meaning as in the Marine and Coastal Access Act 2009 (see section 322(1) of that Act);”

Member's explanatory statement

See the explanatory statement for my amendment at page 92, line 9.

LORD ROBOROUGH
THE EARL OF CAITHNESS

- 137 Clause 55, page 92, line 34, at end insert “as assessed by the use of the best available evidence”

LORD ROBOROUGH

- 138 Clause 55, page 92, line 34, at end insert—
“(12) Where an environmental delivery plan identifies environmental features that are likely to be negatively affected by any invasive non-native species that is present at the site of the development, Natural England, or a body acting on behalf of Natural England, must take all reasonable steps to eradicate the invasive non-native species that has been identified at the site.”

Member's explanatory statement

This amendment seeks to protect all environmental features identified as at risk by invasive non-native species.

LORD ROBOROUGH

157 Clause 61, page 96, line 37, at end insert —

“(h) what impact the EDP has had on the local economy and community of the relevant area.”

Member's explanatory statement

This amendment requires EDP reports to include impact assessments on the local community and economy rather than purely environmental consequences.

158 Leave out Clause 61

Clause 62

LORD LANSLEY

158A Clause 62, page 97, line 36, at end insert “, subject to subsection (2A).

(2A) An EDP can be amended if the following conditions are met—

- (a) the EDP applies to a development with multiple developers,
- (b) a commitment to pay the levy by one or more of those developers would render it no longer reasonably practicable for other developers to opt not to pay the levy and otherwise to meet their environmental obligations, and
- (c) the EDP is to be amended to make the payment of the levy mandatory for the other developers.”

Member's explanatory statement

This amendment allows EDPs to be amended after a developer has committed to pay the levy, if it is to make the levy mandatory where (1) there are multiple developers and (2) some but not all have committed to pay the levy. This would avoid conflict in the delivery of the EDP between (a) developers relying on the levy, and (b) developers abiding by existing environmental obligations.

LORD BANNER

163A Clause 66, page 101, line 39, leave out “, at any time before development commences,”

Member's explanatory statement

LORD BANNER

163B Clause 66, page 101, line 41, at end insert –

“(1A) If a development to which a request relates has already commenced, Natural England must have regard to any guidance issued by the Secretary of State in deciding whether to accept the request.”

Member's explanatory statement

This amendment would require Natural England to have regard to guidance issued by the Secretary of State when considering whether to accept a request from a developer to use an EDP in cases where the development has already commenced.

LORD ROBOROUGH

164 Clause 66, page 102, line 13, leave out subsections (4) and (5)

Member's explanatory statement

This amendment seeks to remove provisions that permit an EDP to require mandatory payments to the Nature Restoration Fund.

LORD LANSLEY

164A Clause 66, page 102, line 39, at end insert –

“(4A) An EDP can only provide that payment of the levy is mandatory if the condition in subsection (4B) is satisfied.

(4B) The condition is that –

- (a) the EDP applies to a development with multiple developers, and
- (b) a commitment to pay the levy by one or more of those developers (whether before the making of the EDP or after) would render it no longer reasonably practicable for other developers to opt not to pay the levy and otherwise to meet their environmental obligations.”

Member's explanatory statement

This amendment would limit the mandatory requirement to pay the levy to circumstances where (1) there are multiple developers and (2) some but not all have committed to pay the levy. This would avoid conflict in the delivery of the EDP between (1) developers relying on the levy, and (2) developers abiding by existing environmental obligations.

This amendment is to confirm that only impacts addressed by an EDP are to be disregarded for the purposes of the Habitats Regulations.

BARONESS TAYLOR OF STEVENAGE

168 Schedule 4, page 171, line 28, leave out “section 126 of the Marine and Coastal Access Act 2009” and insert “—

- (b) section 126 of that Act”

Member's explanatory statement

This amendment disappplies the general duties on public authorities in s.125 of the MCAA 2009 when exercising decision-making functions that may affect marine conservation zones. Those duties require authorities to further the conservation objectives of each MCZ, so an EDP containing network conservation measures may cause a public authority to breach the duties.

- “(3) Nature restoration levy regulations may make provision for those potentially liable to pay the levy to be consulted by Natural England in relation to the charging schedule for a prospective EDP and for the development of the EDP to which it relates to be the subject of a prospective viability assessment.”

Member's explanatory statement

This amendment would provide for those potentially liable to pay a levy in relation to an EDP to be consulted by Natural England about the charging schedule for the levy and for a provisional assessment of the effect on the viability of development to be undertaken.

- (2) Regulations must include –
 - (a) clear criteria for farmer participation including –
 - (i) minimum standards for nature restoration activities, and
 - (ii) evidence of capacity and commitment to deliver agreed conservation outcomes, and
 - (b) procedures enabling farmers to participate in and receive levy funds relating to an environmental delivery plan.
- (3) Within three months of the day on which this Act is passed, the Secretary of State must publish a guidance document setting out how individual farmers and farmer cluster groups may apply for levy funds.”

- (b) provide copies of all correspondence and documentation relevant to the proposed exercise of the power under subsection (1) to the owner of the land and the Secretary of State.”

“Sustainable drainage

The Secretary of State must bring into force in England all uncommenced parts of Schedule 3 of the Water Management Act 2010 (sustainable drainage) within three months of the day on which this Act is passed.”

Member's explanatory statement

In England, developers have the automatic right to connect surface water arising from new homes to the public sewerage system, irrespective of whether there is capacity for this. Implementation of Schedule 3 of the Flood and Water Management Act (2010) would end this automatic right to connect and provide a framework for the approval and adoption of Sustainable Drainage Systems (SuDS).

BARONESS MCINTOSH OF PICKERING
BARONESS WILLIS OF SUMMERTOWN

198 After Clause 87, insert the following new Clause –

“National Standards for Sustainable Drainage Systems

- (c) is such that the predicted or actual volume of water to be discharged thereafter into the public sewer would increase flood risk due to lack of capacity;

or if the current National Standards for Sustainable Drainage Systems have not first been applied.””

Member's explanatory statement

This amendment links the right to connect to the public sewer to first having followed the new Government's newly introduced National Standards for Sustainable Drainage Systems, to provide a more robust incentive to developers to follow this guidance, in the absence of full implementation of Schedule 3 of the Flood and Water Management Act 2010.

 - (b) requiring the owner of a heritage tree, or any other occupier of the land where the tree stands, to advertise appropriately its status as such, and the penalties for harming it, to persons approaching the tree or planning activities in its vicinity;
 - (c) enabling the responsible planning authority, Natural England or the Secretary of State to order the owner of a heritage tree or any other occupier of the land where the tree stands to take specified reasonable steps to maintain and protect the tree and, if the owner or occupier does not take such steps in reasonable time, to take such steps itself and to recover the reasonable cost of doing so from the owner or occupier;

- (3) The Secretary of State must make provision for the creation, publication and maintenance of a register of heritage trees in respect of which heritage tree preservation orders have been made.
- (4) For the purposes of this section, “heritage tree” means a tree listed as such by Natural England on grounds of exceptional historic, landscape, cultural or ecologic importance.
- (5) Natural England must create, publish and maintain a list of heritage trees in England for the purposes of this section.”

Member's explanatory statement

This new Clause provides for the protection of heritage trees.

LORD LANSLEY

200 After Clause 87, insert the following new Clause —

“Duty to inform Natural England about development plans

When making a development plan, a local planning authority must inform Natural England of potential sites for development in relation to whether an EDP may be required.”

This amendment would require plan-making authorities to tell Natural England when it allocates potential sites for development where an EDP would be needed.

LORD ROBOROUGH
LORD BLENCATHRA

201 After Clause 87, insert the following new Clause —

“Regulations: nutrients in water in England

- (1) The Secretary of State may by regulations make provision about the operation of any relevant enactment in connection with the effect of nutrients in water that could affect a habitats site connected to a nutrient affected catchment area.
- (2) The regulations may make any provision which the Secretary of State considers appropriate, including provision that —
- (a) disapplies or modifies, in relation to a relevant enactment, any effect of nutrients in water;
- (b) confers, removes or otherwise modifies a function (including a function involving the exercise of a discretion) under or by virtue of a relevant enactment;

- (c) affects how such a function is exercised, including the extent to which (if any) the effect of nutrients in water is taken, or to be taken, into account;
 - (d) provides for an obligation under or by virtue of a relevant enactment to be treated as discharged (in circumstances where, but for the provision, the obligation may not have been discharged);
 - (e) amends, repeals, revokes or otherwise modifies any provision of a relevant enactment.
- (3) A “relevant enactment” means—
- (a) an enactment comprised in or made under an Act of Parliament, or

- (4) The enactments referred to in subsection (3)(a) do not include—
- (a) this section;
 - (b) Part 6 of the Conservation of Habitats and Species Regulations 2017 (S.I. 2017/1012).
- (5) Neither regulation 9 nor 16A of the Conservation of Habitats and Species Regulations 2017 applies in relation to this section.
- (6) In subsection (1) “habitats site” and “nutrient affected catchment area” have the meaning given in section 96J(2) of the Water Industry Act 1991; and a habitats site is connected to a nutrient affected catchment area if water released into the catchment area would drain into the site.
- (7) In this section “nutrients” means nutrients of any kind.
- (8) The power under subsection (1) may not be exercised after 31 March 2030.”

Member’s explanatory statement

This amendment confers a power on the Secretary of State to make regulations affecting the operation, in connection with the effect of nutrients in water, of enactments concerned with the environment, planning or development in England.

LORD OFFORD OF GARVEL
BARONESS BLOOMFIELD OF HINTON WALDRIST

202

- (2) In subsection (2), insert at the beginning “Subject to subsection (3A),”.
- (3) In subsection (3), for “(4)” substitute “(3A)”.
- (4) After subsection (3) insert—
 - “(3A) Subsection (2)(a) to (c) does not apply, and this subsection applies, in the case of an application for an order granting development consent for a

nuclear-powered generating station with a proposed nameplate capacity of 500MW or higher, if and to the extent that the Secretary of State considers it is necessary and appropriate to disregard any provision of –

- (5) By the end of the period of six months beginning with the day on which this Act is passed, the Secretary of State must make regulations to amend the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 to provide for a bespoke regime for the environmental impact assessment of any proposal for an order granting development consent for a nuclear-powered generating station with a proposed nameplate capacity of 500MW or higher.
- (6) Regulations made pursuant to subsection (5) must make provision for –
 - (a) a page limit for environmental statements, not exceeding 1,000 pages for the main body of the statement and a total of 4,000 pages for any appendices, and
 - (b) any person or body consulted on an environmental impact assessment to respond to the consultation within 21 days.”

Member's explanatory statement

This new clause makes special provision in relation to large-scale nuclear power station developments by allowing the Secretary of State, when determining an application for a Development Consent Order, to disregard regulations relating to environmental impact assessment, habitats regulations assessment, or any environmental delivery plan, if this is considered necessary for the delivery of the nuclear power station. It also requires the Secretary of State to bring forward regulations to put in place a more proportionate environmental impact assessment regime for proposed nuclear power station development.

- (2) The report required by subsection (1) must be published by the end of 2025.”

Member's explanatory statement

This new clause would require the Joint Nature and Conservation Committee to report on how to consolidate the Conservation of Habitats and Species Regulations 2017 and the Wildlife and Countryside Act 1981, in so far as they relate to planning and development.

- (2) A statutory instrument containing regulations under this section may not be made unless a draft of the instrument has been laid before, and approved by a resolution of, each House of Parliament.”

De minimis effects

- 4 Regulation 55 (licences for certain activities relating to animals or plants) is amended as follows.
- 5 After paragraph (6), insert –

“(6A) Where there is evidence that the effects of a plan or project alone on a protected feature are likely to be de minimis (including due to their temporary duration) and the plan or project’s contribution to in-combination effects with other plans or projects on that protected feature is also likely to be de minimis, there should not be considered to be a likely significant effect on a European site or European offshore marine site for the purpose of paragraph (1)(a) or an adverse effect on the integrity of a European site or European offshore marine site for the purpose of paragraph (5), including in cases where the European site or European offshore marine site has an unfavourable conservation status.

(6D) Any evidence or justification provided by an applicant for the purpose of assessment, or to enable a competent authority to determine whether an appropriate assessment is required, shall not (without justification) be accorded less weight by the competent authority than that provided by the appropriate nature conservation body.”.

Member's explanatory statement

LORD MESTON

- 238A** Clause 105, page 149, line 41, at end insert “unless the person displaced can show that he or she did not deliberately allow the dwelling to fall into disrepair or to remain derelict and that his or her failure to take steps or action required by the notice or order served was due to that person’s poor health or other infirmity, or was due to his or her inability to afford the cost of the work required.”

Member's explanatory statement

This amendment seeks to mitigate the potentially harsh and punitive application of the proposed new section 32A of the 1973 Act when a dwelling is compulsorily acquired.

After Clause 106

BARONESS SCOTT OF BYBROOK
LORD JAMIESON
BARONESS HODGSON OF ABINGER

- 239** After Clause 106, insert the following new Clause –

 - (a) preventing villages from merging into one another, and
 - (b) preserving the setting and special character of historic villages, under the National Planning Policy Framework.”

Member's explanatory statement

This amendment seeks to provide existing villages with protection equivalent to that currently provided to towns under the National Planning Policy Framework.

BARONESS HODGSON OF ABINGER

- 240** After Clause 106, insert the following new Clause –

“Land purchasing: duty to declare other approaches to purchase or lease land

- (1) Any developer or company approaching a landowner to buy or lease land for the purpose of development must declare whether they are also approaching other owners of land in the vicinity to buy or lease land for the purpose of development.
- (2) The declaration required under subsection (1) must include whether the combined amount of land intended to be purchased or leased will be submitted for

application as a nationally significant infrastructure project as set out in Part 3 of the Planning Act 2008.

- (3) In subsection (1), “in the vicinity” means any land immediately adjoining or within ten miles of the land intended to be leased or purchased.”

Member's explanatory statement

This amendment seeks to ensure that any landowner being approached is aware of whether it is just their land that is the subject of purchase/leasing or whether there are others being approached so that the total sum of the land obtained may result in application for designation as a nationally significant infrastructure project.

BARONESS HODGSON OF ABINGER

241 After Clause 106, insert the following new Clause –

- (1) Any developer or company seeking to buy or lease land from a landowner for the purpose of development must declare to the landowner whether they already hold planning permission for similar developments within ten miles of the land being purchased or leased.
- (2) If any such land declared under subsection (1) has been held for over one year without development commencing, any planning permission for the land to be purchased or leased under subsection (1) may not be approved.”

Member's explanatory statement

This amendment seeks to prevent “land banking” – the practice of purchasing undeveloped land and holding it for future development or resale, rather than immediately building on it.

Clause 107
