LORD ALTRINCHAM
BARONESS ALTMANN

1 Clause 1, page 1, line 10, after “tax” insert “at the higher or additional rate”

Member's explanatory statement

This amendment would exempt basic rate taxpayers in England, Wales and Scotland from the £2,000 cap.

LORD FULLER

2 Clause 1, page 2, line 14, at end insert –

“(6DA) Regulations made under subsection (6A) must make provision enabling an employed earner to carry forward any unused part of the contributions limit from the three immediately preceding tax years for the purposes of determining the contributions limit applicable in a subsequent tax year.

(6DB) For the purposes of subsection (6DA) –

- (a) an amount is “unused” to the extent that the amount foregone in relation to benefits mentioned in subsection (6A) for a tax year is less than the contributions limit for that year,
- (b) regulations may make provision about the order in which unused amounts are to be treated as used,

- (c) regulations may make provision about cases in which an employed earner was not within subsection (6A) for the whole or part of a tax year, and
- (d) regulations may make such consequential, supplementary, incidental or transitional provision as HM Treasury considers appropriate.”

Member's explanatory statement

This amendment would require regulations to provide for a three-year carry-forward of unused amounts of the annual contributions limit, aligning the treatment of salary sacrifice pension contributions for National Insurance purposes with the existing three-year carry-forward framework in the pensions annual allowance regime in Great Britain.

LORD FULLER

3 Clause 1, page 2, line 14, at end insert –

- “(6DA) Regulations made under subsection (6A) may make provision enabling an employed earner to carry forward any unused part of the contributions limit from one or more previous tax years, for the purposes of determining the contributions limit applicable in a subsequent tax year.
- (6DB) Regulations made in accordance with subsection (6DA) may in particular –
 - (a) specify the number of previous tax years from which unused amounts may be carried forward,
 - (b) make provision for how any unused amount is to be calculated,
 - (c) make provision about the treatment of earners whose remuneration fluctuates between tax years, and
 - (d) make such consequential, supplementary, incidental or transitional provision as HM Treasury considers appropriate.”

Member's explanatory statement

This amendment would enable regulations to provide for any unused portion of the annual contributions limit to be carried forward from previous tax years in Great Britain, so that individuals with fluctuating earnings are not disproportionately affected by the annual cap on salary sacrifice pension contributions for National Insurance purposes.

LORD LEIGH OF HURLEY
BARONESS ALTMANN

4 Clause 1, page 2, line 14, at end insert –

- “(6DA) Contributions to pensions where employees are not offered alternative compensation are not to be treated as optional remuneration arrangements.”

Member's explanatory statement

Where an employee has the option of a cash allowance or additional pension contribution, that would be an optional remuneration arrangement. But where no cash alternative is offered then there is clearly no optional arrangement and this amendment would therefore make it exempt.

LORD LEIGH OF HURLEY
BARONESS KRAMER
BARONESS ALTMANN

5 Clause 1, page 2, line 14, at end insert –

“(6DA) In cases where the contribution limit is exceeded, regulations must make provisions for such amounts not be treated as earnings by virtue of the Education (Student Loans) (Repayment) Regulations 2009 (S.I. 2009/470), Part 4, Regulation 41.”

Member's explanatory statement

Income for student loan purposes is defined on an NI basis. This amendment exempts salary sacrificed pension contributions over the limit from being included in student loan repayments definitions, and so aligns with other benefits in kind.

LORD MACKINLAY OF RICHBOROUGH

BARONESS NEVILLE-ROLFE
LORD ALTRINCHAM

7 Clause 1, page 2, line 14, at end insert –

“(6DA) Regulations made under subsection (6A) must include provision explaining –
(a) the basis on which the Treasury considers employed earners to be higher earners for the purposes of those regulations, and
(b) how the contributions limit specified under subsection (6C) reflects that assessment.”

Member's explanatory statement

This amendment would require that regulations made under Clause 1 explain the basis on which the Treasury considers certain employed earners to be “higher earners” for the purposes of the national insurance charge, and how the contributions limit reflects that assessment in Great Britain. It is intended to ensure transparency and consistency between the policy justification set out in the Explanatory Notes and the effect of the regulations made under the Bill.

BARONESS NEVILLE-ROLFE
LORD ALTRINCHAM

- 41** Clause 3, page 4, line 5, at end insert –
- “(2A) Regulations made under section 4(6A) of the Social Security Contributions and Benefits Act 1992 or section 4(6A) of the Social Security Contributions and Benefits (Northern Ireland) Act 1992 may not come into force until the expiry of the period of six months beginning with the day on which they are laid before Parliament.”

Member's explanatory statement

This amendment would require regulations made under section 4(6A) of the Social Security Contributions and Benefits Act 1992 and the equivalent Northern Ireland provision to be laid before Parliament at least six months before they may come into force, ensuring adequate time for parliamentary scrutiny and for employers and payroll providers to prepare for their implementation.
